** A survey for collecting the entry information of each student will be sent via email.*

4. Health Insurance

- ☞ International students will be mandatorily and automatically registered for the NHI(National Health Insurance in Korea) when they create alien registration card at the immigration office at Ulsan in Korea, after their arrival in Korea.

In recap, you will be automatically registered for the NHI and you need to pay for the insurance fee on a monthly basis.

And the subscription is postponed until the student completes registration for a foreign registration card. Therefore, considering the timing of your NHI insurance registration in Korea, Please subscribe to your personal insurance(ex: Travelers Insurance) for 45days from your country when coming to Korea.

The reason is that, getting an ARC(alien registration card) is time-consuming process. It will take about 30~45days, your personal insurance (Period for 45days) will cover for you duration of periods without insurance

※ UNIST Center for International Affairs will inform of the details of insurance subscription at the orientation.

5. Dormitory information

7. Covid-19

 **quarantine place** (For the probability of self-testing positive on first day of arrival in Korea)

Upon your arrival at Incheon airport, you would have to do test with the self-test kit on the spot before moving to dorm at UNIST. However, If your self-test is positive, then you are not allowed to enter the dorm on the day of your arrival according to dorm policy. With this reasons, it is our recommendation with a “better safe than sorry attitude” that you might as well to scout out your accommodation for the quarantine place for 2 or 3 days in Ulsan area in advance. Just in case that If you get the positive result with the self-test. You might need a place where you can stay immediately. * You can find the place via airbnb (Private Certified Housing on the internet)

※If you get positive with the self-kit, you need to do PCR test at testing center on your arrival day or next day. (The result would come out next day)
